

HONESTGAME®

We Simplify Academic Eligibility.

WHO WE ARE

Honest Game is the leading academic compliance solution for high school educators to ensure students comply with the complex and changing academic requirements for college athletics.

Honest Game mitigates the risk of students failing to meet the academic requirements by empowering coaches, counselors, and families with innovative and individualized guidance. Our platform also drives learning outcomes and educates on the best fit opportunities for all students regardless of athletic ability.

WHAT WE DO

We transform high school transcripts and test scores into a trusted college athletic compliance report. Counselors, students, and families get a clear picture of academic eligibility status, and college coaches get an instant view into a recruit's academic eligibility.

Honest Game also provides NCAA registration and portal maintenance to secure school compliance and ensure core school courses are getting proper NCAA credit.

THE HIGH SCHOOL ROADMAP

- ✓ **Securely launch your account.** Honest Game has a clear and simple process for secure data transfer and automates creation of online staff, student and parent/guardian profiles to check eligibility status whenever, wherever.
- ✓ **Track progress with a one click comprehensive dashboard.** Administrators, counselors, coaches and families get on the same page to understand where students stand, provide students with a realistic view of all post-secondary opportunities and drive improved learning outcomes.
- ✓ **Get a clear path to academic eligibility and college opportunities.** Honest Game's software turns academic data into a college athletic compliance report (known as a CARE®). CARE® provides a clear understanding of the five college athletic pathways, including NCAA/NAIA academic eligibility status, and provides individuals with strategic advice on short-term achievable goals, course selection, and eligibility recovery. Students and families can instantly share with college coaches during the recruiting process.
